

## Annual Author Index

Following is the author index for volume 165 of the *Journal*, which covers all material from January 2008 through December 2008. The *Journal* no longer prints a subject index. Two-letter abbreviations are used for months. The complete citation for each article is listed under the name of the first author. Coauthors are listed alphabetically with a cross-reference to the first author; cross-references containing multiple first author names separated by semicolons indicate multiple articles by the coauthor. Entries other than Reviews and Overviews and New Research are given the following designations: Commentary (commentary), Editorial (editorial), Images in Neuroscience (image, neuro), Introspections (introspections), Treatment in Psychiatry (treatment in psychiatry), Clinical Case Conference (case conf), Education in Psychiatry (education in psychiatry), Images in Psychiatry (image, psych), Book Forum (bk rev), Letters to the Editor (letter), Official Actions (off acts), and Supplement (suppl). Corrections are cited with the articles to which they refer. Readers can also use the Journal's website ([ajp.psychiatryonline.org](http://ajp.psychiatryonline.org)) to search by author, issue, subject, section, or keyword.
